

# measurement chart

shoes collar cup size size

*That's how you measure correctly...*

*Take your measurements with a measuring tape from the tip of your big toe to the end of your heel. To give your toes enough room add 1.5 cm to your measured value. Now multiply the total with 1.5 and you receive your shoe size.*

<i>length in cm</i>	<i>Germany &amp; EU (besides France)</i>	<i>length in cm</i>	<i>Germany &amp; EU (besides France)</i>
